FORMATIVE ASSESSMENT II - 2016-17

STD : III

ENGLISH

Time : 1 hr.
Max. Marks : 25

SECTION – A (READING) (5 marks)

- I. Read the passage and answer the questions that follow.

The blue whale is the largest animal on earth. It is many times bigger even than the elephant. It lives in the ocean, but it is not a fish. It cannot remain in the water for long. It has to come up to the surface for fresh air. It breathes with its lungs and not with gills. When the whale breathes a jet of water rushes out from the blowhole on its head. This can be seen many kilometres away. The whale feeds on small animals and plants which are found under water. It looks scary, but it seldom attacks human beings. Human beings hunt the whale for its oil and bones. As a result, not many whales are left in the ocean now.

- A. Choose the correct answer. [$\frac{1}{2} \times 2 = 1$]
1. The blue whale breathes with its _____. (gills, lungs)
 2. The whale comes up to the surface for _____. (food, air)
- B. Write True or False. [$1 \times 2 = 2$]
3. The blue whale is the largest animal in the world.
 4. Whales cannot remain in the water for long.
- C. Answer the questions. [$1 \times 2 = 2$]
5. What does a whale feed on?
 6. Write one special feature of a blue whale.

SECTION – B (WRITING) (5 marks)
