**SUMMATIVE ASSESSMENT - II - 2015-'16**

STD: II

Time: 1 hr.

**ENGLISH**

Max. Marks: 50

**SECTION - A (READING) [12]**

**Read the paragraph and answer the questions.**

The banyan is probably the biggest and friendliest of all trees. We don't see many banyan trees in our cities these days. These trees need plenty of space to grow. In our over crowded cities, there is not enough living space for people. A full - grown banyan takes up a large area. We see banyan trees in the park and in every village.

The banyan has 'hanging roots'. The hanging roots support the huge tree. These roots grow from the branches of the trees and hang down. When they reach the ground, they again start growing inside the ground.

**I. Answer these questions.**

**(4)**

a) Why don't we see many banyan trees in cities?
